

Summer 2020

Analysis Group

Position Title: Analyst Intern
Address: 1900 16th Street, #1100
City: Denver
State: CO
Zip: 80202
Paid Position: Yes
Deadline to Apply: January 13, 2020

Overview

Analysis Group is one of the largest economics consulting firms, with more than 1,000 professionals across 14 offices in North America, Europe, and Asia. Since 1981, we have provided expertise in economics, finance, health care analytics, and strategy to top law firms, Fortune Global 500 companies, and government agencies worldwide. Our internal experts, together with our network of affiliated experts from academia, industry, and government, offer our clients exceptional breadth and depth of expertise.

- We offer **cutting-edge analyses** and analytical tools to address business challenges that require rigorous, evidence-based research.
- We collaborate with **top professors from leading institutions** to create a bridge between current academic thinking and real business issues.
- We assist **premier law firms** in many different litigation contexts, including antitrust, healthcare, intellectual property and commercial damages, and with all aspects of litigation, including pretrial discovery, development of economic and financial models, preparation of testimony, and critique of opposing experts.
- We advise **corporate and government clients** on a range of business issues that require expert interpretation of economic and financial data, including valuation of companies and assets, securities and financial instruments, tax and transfer pricing issues, cost-effectiveness analyses, market analyses, and evaluation of mergers and acquisitions.

Summer 2020

- We also help organizations **create strategies for growth** by analyzing market dynamics and organizational capabilities, enhancing innovation in current products and services, and identifying new market opportunities.

Describe the value of the proposed Internship to the Agency/Firm

Summer interns provide assistance on various cases through a combination of detailed research and complex data analyses. Summer interns offer significant value to the efficiency and overall comprehensiveness of Analysis Group's work product, thereby directly benefiting both the firm and its clients.

Describe the value of the proposed Internship to the Intern

Summer interns gain valuable experience through exposure to a broad range of clients and industries. They develop first-hand knowledge of critical business issues while honing analytical and problem-solving skills. Typically, summer interns work closely with consultants at all levels of the firm, thereby exposing them to the totality of a case and the combined expertise of Analysis Group employees. Case managers work with the summer interns on an on-going basis to ensure that the internships are providing a positive experience for the intern.

Job Description

Business hours for Analysis Group are 9-6 M-F. Overtime may be required. We prefer applicants who are current juniors working towards a degree in economics, finance, applied math, statistics, or a related subject. Candidates should have strong quantitative, analytical, and organizational skills in addition to a desire to work in a pragmatic, research-oriented environment. They should have excellent attention to detail and accuracy, strong communication skills, and the ability to work independently and as part of a team.

Summer interns may have the opportunity to work on multiple cases.

Responsibilities and work experiences may include:

- Analyzing economic, financial, and healthcare data using algorithms and statistical programming in Java, Python, R, SAS, Stata, VBA, and other programs

Summer 2020

- Developing data analyses using statistical methods and analytical tools including econometric estimation of models, survival analysis, and machine learning
- Creating dynamic visualizations to rapidly explore data and models
- Examining market and industry behavior through targeted research
- Reviewing and summarizing analyst reports and client documents
- Participating in meetings with academic experts and case team members
- Assisting in the preparation of expert reports and other client deliverables

Management Goals

Summer interns should be able to manage their time on multiple work tasks and coordinate with their case teams. They should be flexible and willing to take on assignments as they arise. They should be able to meet deadlines and, at times, work under the pressure of tight timelines.

Special Job Requirements

Experience with Excel is required. Experience with statistical software such as SAS and Stata is preferred but not required.

Transportation: Analysis Group is located in downtown Denver.

Important:

Despite the deadlines posted here, **applications are reviewed on rolling basis and hiring can occur once the right candidate is found, so apply as soon as you know you want to pursue this opportunity.** Cover letter and resume should be uploaded and submitted through your school's career portal AND then apply on the AG website by copying and pasting this link in your browser:
